

Gentlemen: please resist any attempt by NAB to dictate what I and other satellite radio subscribers (Ie paying customers) can or cannot listen to. The reason we chose satellite radio (and are willing to pay to do so) is so that we would not be compelled to listen to the endless commercials and terrible programming offered by NAB affiliates around the country. Maybe if they offered a competitive product, they would not need to try an "end run" such as Petition 04-160. PLEASE TURN THEM DOWN!!!
